## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on 8/6/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,661,639 has been reviewed and is accepted. The terminal disclaimer has been recorded.

The examiner withdraws the rejection of claims 2, 3, 6, & 9.

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest (as taken in combination with the other claim features) a capacitor comprising at least one composite portion, wherein the at least one composite portion is cosintered with a ceramic dielectric portion (claims 2-3, 9, 46, 60) \*It is noted that cosintering the composite portion with a ceramic portion would essential eliminate the boundary between the portions as noted in the arguments/specification); and a buried horizontally-orientated metallization in the dielectric portion and having at least one conductive metal-filled via extending from the buried metallization to the at least one composite portion (claims 6, 58-59).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
